HOSTED EXCHANGE

HOSTED EXCHANGE
FOR CLOUD-BASED E-MAIL, APPOINTMENTS AND CONTACTS

MTF Hosted Exchange is our hosted messaging service for companies, based on Microsoft Exchange Server. It supports you in providing your company with the necessary protection and granting your staff access wherever they may be. MTF takes care of the setup and provisioning as well as the ongoing servicing and upgrading of your Exchange server infrastructure.

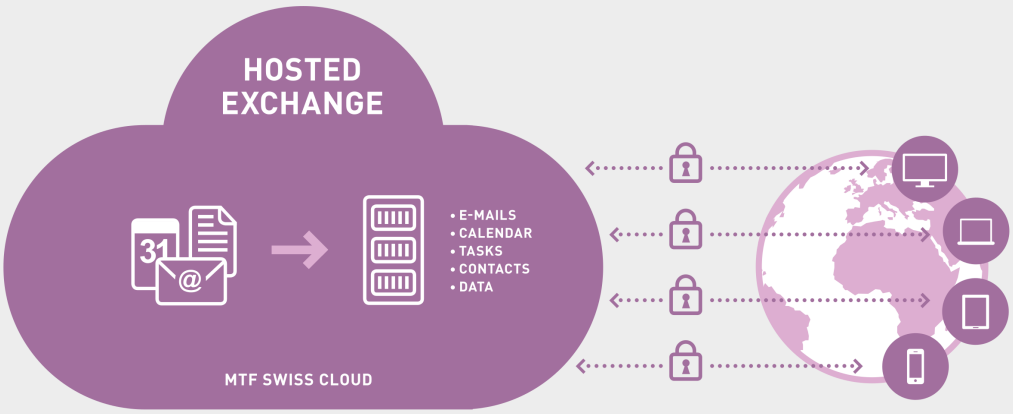
YOUR ADVANTAGES

- LOW INVESTMENT COSTS
- MOBILE WORKING
- PERSONAL AND COMPETENT SUPPORT ON SITE
- INCLUDES A POWERFUL SPAM FIREWALL
- NO SOFTWARE INSTALLATION NECESSARY
- NO OWN SERVER REQUIRED
- NO ADMINISTRATIVE WORK WHATSOEVER

CLOUD-BASED EFFICIENCY
WITH HOSTED EXCHANGE

Thanks to our Hosted Exchange service, you no longer need to have your own Exchange server on site. Real-time coordination ensures the service supports efficient collaboration within your team and enables everyone involved to communicate no matter where they are.

Our Hosted Exchange service can be adapted extremely flexibly to meet your individual requirements. Active directory integration, the connection of applications and tool-sharing, etc. are also possible.



TECHNICAL
INFORMATION

GEOGRAPHICALLY SEPARATE DATA CENTERS

Greatest possible security through modern data centers with a reliable, redundant infrastructure.

DATA AT THE DATA CENTER

The data are stored separately to those of other customer systems at our high-security data centers.

BACKUP AND RESTORE

Daily backups prevent data loss. A recovery service ensures data can be restored in a short time in the event of accidental deletion.

DIRECT NETWORK CONNECTIONS

for customs with a local active directory.

A PROFESSIONAL SPAM FILTER

No spam can penetrate our spam firewall, which is activated as part of the package.

COMPLETE COMMUNICATION HIGHLY ENCRYPTED

Internet communication with the Exchange Server is highly encrypted. Permanente VPN connections are also available.

OUTLOOK WEB ACCESS AND ACTIVE SYNC

Support for all types of telephone and computer. Access from any device without restrictions.

REMOTE WIPE FUNCTION

If you lose your phone or tablet, you can delete business-related data on the device using the remote wipe function.

PUBLIC FOLDER SUPPORT

Public folders for simplified group-work and fast communication or planning involving several people.

COMPLETE EXCHANGE SUPPORT

All standard Exchange functions are supported: Outlook Web Access (OWA), RPC over HTTPS, personal address books and calendars, remote wipe and public folders, push services for all mobiles.
