

CLOUD ABACUS

ABACUS ERP SECURELY AND RELIABLY FROM THE CLOUD

The Abacus SaaS (Software as a Service) solution provides you with an opportunity to obtain Abacus business software through a leasing subscription and use it directly over the Internet from the cloud. This then gives you access to your data whenever you want it, wherever you happen to be. The different Abacus add-ons (for financial accounting, accounts receivable, accounts payable, payroll accounting, CRM, invoicing, performance measurement, plant, PPS, AbaShop, e-business, etc.) can be used either individually or in combination with one another.

YOUR ADVANTAGES

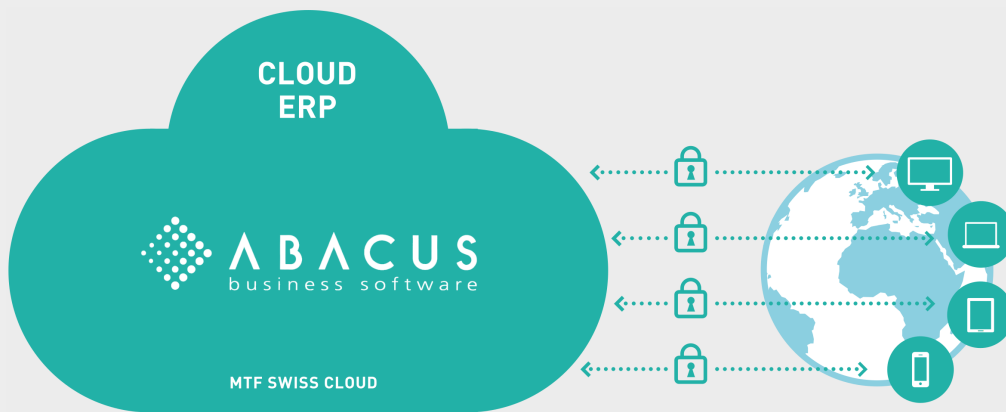

- ✓ LOW INVESTMENT COSTS
- ✓ NO SOFTWARE INSTALLATION NECESSARY
- ✓ INDEPENDENT OF PLATFORM AND BROWSER
- ✓ PERSONAL AND COMPETENT SUPPORT
- ✓ FIXED, PLANNABLE MONTHLY COSTS
- ✓ MOBILE WORKING
- ✓ SYSTEMS AND SOFTWARE ARE ALWAYS UP TO DATE

ABACUS CLOUD

Thanks to our Abacus SaaS service, you no longer need to have your own server on site. All you need is Internet access and your personal SuisseID, and you have your working environment with you at all times, whether you are at the office, travelling or at home. Your sensitive corporate data are located at MTF's high-security data center in Switzerland and stored professionally. Let us deal with the operation as well as maintenance and updates of your ERP software.

Thanks to flexible scalability, Abacus can be adapted to your individual requirements at any time with the addition of further programs and functions, which also leads to easily calculable costs. The modern AbaConnect interface also provides an opportunity to exchange data with various applications.

As an Abacus hosting partner and long-time Abacus sales partner, we guarantee you optimal and personal support.

TECHNICAL INFORMATION

OPERATED, MAINTAINED AND UPDATED BY MTF

You always work with the very latest version of Abacus.

BACKUP AND RESTORE

No work for you. MTF takes care of daily backups.

ALL YOU NEED IS A WEB BROWSER

All you need to have installed on your workstation is any Web browser and the Java Virtual Machine.

PLATFORM INDEPENDENT

You're free to choose whatever workstation you want (Windows, Mac or Linux).

SUISSEID

Your personal electronic ID for user authentication.

SECURITY

The combination of encrypted communication and the SuisseID makes our SaaS solution as secure as online banking.

SCALABILITY

Subscriptions can be scaled per user.
