

A large, jagged iceberg floats in a calm, blue ocean under a clear sky. The iceberg is the central focus, with its reflection visible in the water. The text 'CLOUD SAP BUSINESS ONE' is overlaid on the iceberg.

CLOUD SAP BUSINESS ONE

A SECURE CLOUD SOLUTION FOR SAP BUSINESS ONE

The SAP Business One on-demand cloud solution provides you with an opportunity to obtain SAP Business One through a leasing subscription and use it directly over the Internet. This then gives you access to your data whenever you want it, wherever you happen to be. All license types (professional user, limited user and starter user) are available as on-demand subscriptions.

CLOUD SAP BUSINESS ONE

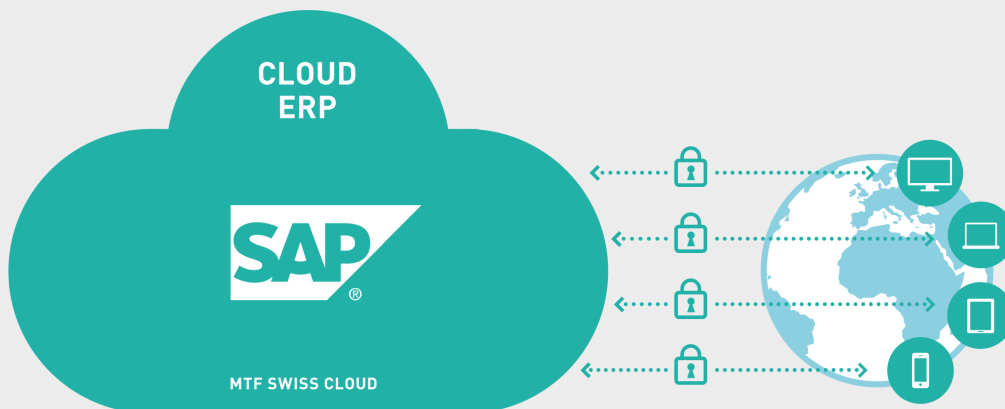

By using SAP Business One in the cloud, you can streamline and standardize your business processes company-wide. Easy access to integrated real-time information from all your business units gives you transparency about your operational performance and forms a reliable basis for sound, success-promoting business decision-making.

The Software-as-a-Service approach ensures rapid implementation and simple expansion of the available functions. You benefit from rapid value-adding, can react flexibly to changing market conditions and thus secure yourself decisive competitive advantages.

In contrast to conventional on-site software implementation, SAP Business One Cloud does not require high investment. Ongoing IT maintenance costs are also minimized, resulting in an overall reduction in costs.

Thanks to flexible scalability, SAP Business One can be adapted to your individual requirements at any time with the addition of further programs and functions, which also leads to easily calculable costs.

As an SAP Business One hosting partner and long-time SAP Business One gold partner, we guarantee you optimal and personal support.
