- ✔ OWN NEUTRAL HOST NAMES
- ✔ HIGHEST SECURITY THROUGH FULLY REDUNDANT SYSTEMS
- ✔ REGISTRATION OF ALL TOP-LEVEL DOMAINS
- ✔ UNLIMITED NUMBER OF DOMAINS AND ENTRIES
- ✔ STATE-OF-THE-ART DNS SERVICE SYSTEMS

# PERSONAL DOMAIN AND DNS SERVICES

---

Nowadays, the most important services run on the Internet. Whenever they are called up, the relevant Internet address is required. Our special DNS system is perfectly adapted to our customers and meets their every need completely. Our DNS servers are operated redundantly at MTF data centers in Switzerland. The DNS systems are professionally and proactively monitored around the clock. Any problems that occur are detected and tackled before they can cause any damage.

## TECHNICAL INFORMATION

---

### GEOGRAPHICALLY REDUNDANT DNS SERVICES

The distributed cloud DNS system is outsourced geographically redundantly at several data centers in Switzerland.

### UNLIMITED DOMAINS

No restrictions in the selection of domain names. You can enter any number of them on our system.

### UNLIMITED ENTRIES

All DNS entries are supported. You can make as many as you need, without any additional costs.

### THE LATEST SERVER TECHNOLOGY

The DNS servers have a redundant and highly available setup and employ the latest server technology for full functionality.

### SUPPORT FOR ALL ENTRIES

CNAME, A, AAAA, MX, NS, TXT, LOC, RP, HINFO and SRV.

### SUPPORT FOR ALL CLASSIC AND GENERIC TOP-LEVEL DOMAINS

Our system supports both cTLDs like .ch, .com, .org, .eu, etc. and gTLDs like .bio, .ski, .uno, etc.

### ADMIN PANEL FOR SIMPLE MANAGEMENT (OPTIONAL)

An intuitive, simple-to-use online management tool.
