

WEB & E-MAIL

PROFESSIONAL HOSTING AND E-MAIL

From simple Web sites to highly specialized Web platforms for companies, our specialists reliably cover every need you could possibly have. Coupled with direct advice and assistance from our specialists, your Web site will be up and running in no time at all. Your Web and mail servers will run in an ultramodern, high-performance server environment. All servers are operated at the data centers of MTF Swiss Cloud.

YOUR ADVANTAGES

- ✔ INDIVIDUALLY TAILORED HOSTING WITH FLEXIBLE OPPORTUNITIES FOR MODIFICATION
- ✔ AN ADVANTAGEOUS INTEGRATED PACKAGE FOR E-MAIL AND WEB PROJECTS
- ✔ STATE-OF-THE-ART HIGH-CAPACITY SERVER TECHNOLOGY
- ✔ HIGHEST SECURITY THROUGH MONITORING, MULTIPLE BACKUP AND REDUNDANCY

PERSONAL WEB AND E-MAIL SERVICES

With our Web and e-mail services, you get personal advice and assistance from one of our hosting specialists from the very outset. As a consequence, you can realize your Web and mail project in a short space of time and with little effort.

You receive Web hosting and e-mail as an advantageous integrated subscription package. We offer a variety of options for hosting: Shared hosting, dedicated hosting and cloud hosting. Whatever type of hosting you choose, we have extremely flexible personalization options to tailor our services to your particular needs. We also offer fully individualized solutions and special development.

Your Web and e-mail servers are operated on state-of-the-art high-capacity server technology at our data centers in Switzerland. Round-the-clock monitoring, multiple backups and geographic redundancy ensure the highest possible security.
