MISSION STATEMENT OF
MTF DATA

OUR MISSION

1. We plan and realize innovative, reliable IT solutions that optimally support your business processes, are flexible and cut costs.
2. We ensure that your IT infrastructure runs reliably 24 hours a day while at the same time remaining transparent and easy to operate.
3. Our logistics and services make us a powerful infrastructure partner for everything from SMEs to major corporations.

- Credible and competent partnerships with our customers
- We invest in our company and are financially independent
- Leading in the implementation of innovative IT solutions
- Efficient, reliable and professional in the operation of IT solutions

OUR VALUES

Our corporate values play a major part in guaranteeing that we are a reliably proactive, modern and sustainable IT partner. Everything is based on our values.

- We value and promote our employees. After all, they are the foundation of our company
- We live our proximity to our customers through fair and transparent collaboration
- We support sustainable projects to protect our environment
- We take care to use resources sparingly

WHAT CHARACTERIZES
AND DIFFERENTIATES US

MTF is one of the largest and longest-established IT service providers in Switzerland. We are represented throughout Switzerland in every region by independent, skilled offices whose staff are available in person and locally on site. We speak your language and maintain close customer relations and long-term partnerships. Our product portfolio comprises all modern IT for SMEs and corporations, whether on premise, in the cloud or as a hybrid solution. Our own high-performance Swiss cloud is one of the most modern and powerful cloud products available in Switzerland.
