ALL NECESSARY APPLICATIONS FROM ONE HAND

SEAMLESS INTEGRATION OF ALL APPLICATIONS

With the virtual workplace, access to applications is possible at any time and from any location. Production machines, IOT devices or even industrial roads can be controlled and monitored easily, at any time and from anywhere. Data security is guaranteed at all times thanks to our Swiss data centres and the strictest security guidelines.

CAD, BIM AND VIDEO EDITING FROM ANYWHERE

Complex CAD and BIM applications such as Autocad, Archicad or Vectorworks, as well as video editing software such as Adobe Premiere or Blender, can easily be used in the private cloud thanks to the virtual workplace - at any time, regardless of location and without any loss of performance. A large number of architects, designers and planning companies count on our high-performance business applications.
