

# BACKUP & ARCHIVING

---

## COMPLIANCE WITH ALL DATA SECURITY REQUIREMENTS

---

MTF's data security solutions ensure that your data are protected and all service level requirements are met. Highest availability through fast and reliable backup and recovery solutions. Legally compliant archiving also offers the highest level of data protection.

## YOUR ADVANTAGES

---

- ✔ CLOUD AND LOCAL BACKUP FROM A SINGLE SOURCE
- ✔ HIGH AVAILABILITY AND SCALABILITY
- ✔ STATE-OF-THE-ART BACKUP AND ARCHIVING TECHNOLOGY
- ✔ COMPLETELY MANAGED OR SELF-MANAGED
- ✔ LEGALLY COMPLIANT ARCHIVING
- ✔ CLOUD BACKUP STORED IN SWITZERLAND

# COST-EFFECTIVE AND SECURE BACKUP AND ARCHIVING

You can only manage your data if you can store and protect them in some way. MTF data protection solutions keep your data secure and constantly available while at the same time enabling you to optimize your backup and restore activities. Minimize your data loss risks in a cost-effective way and rapidly restore normal operation after outages. At the same time, you'll be giving your company an opportunity to expand and grow in line with future demands.

# A COMPREHENSIVE PORTFOLIO

---

## MODERN BACKUP & RECOVERY

Powerful and efficient backup technology is essential for ensuring high data security. A media break ensures comprehensive security.

- Protection for physical and virtual environments
- Uniform management and ultrasimple monitoring
- Rapid restoration and intuitive operation.

## LEGALLY COMPLIANT ARCHIVING

Archiving, compliant, legal regulations and e-discovery are proving increasingly challenging for modern-day companies. MTF offers a variety of archiving services.

- Lower storage requirements through archiving
- Document and e-mail archiving from a single source
- Compliance with statutory directives thanks to modern archiving
